hexeko

UI/UX Designer

Hexeko

Founded in 2018, Hexeko is a start-up whose mission is to modernise and digitalize the employee benefits package. Hexeko provides its corporate clients with an online platform to search, book and spend on activities and products. Thanks to technological tools and innovative payment methods, Hexeko aims to become the market leader in employee benefits in Europe.

Since its inception, the start-up has experienced strong expansion. That is why we are looking to expand the team with ambitious and motivated profiles.

Joining the Hexeko team means:

- Participating in the evolution of the Belgian & French benefits market.
- Developing an amazing user interface.
- Being part of a young and dynamic team.

Mission

Are you a highly talented, ambitious designer wanting to take part in a challenging role where you can learn lots more?

We are looking for a motivated designer to come join our agile team of professionals. If you are passionate about design, constantly seeking to learn and improve your skill set, then you are the type of person to fit our team.

We are offering superb career growth opportunities, great compensation and benefits. Your mission will be to develop our activity by carrying out several varied tasks:

- Establish and promote design guidelines, best practices and standards.
- Improve the look and feel of our product and interfaces.
- Create, improve and use wireframes, prototypes, style guides, user flows, and effectively communicate your interaction ideas using any of these methods.
- Design the aesthetics to be implemented within our websites, from the layout menus and drop-down options to colors and fonts.

hexeko

- Analyze customer responses and website data to determine high traffic web pages and why some perform better than others.
- Define and spread best practices.
- Participate and assist in carving backlog into sprints.
- Work together with front-end developers, product management and other teams.

Required profile

- 3-5 years of demonstrated experience in creating and implementing UI design.
- Hands-on experience creating wireframes, prototypes, storyboards, user flows, etc.
- Proficient with visual design programs.
- Understanding of basic front-end languages: HTML5, CSS3, Javascript.
- Ability to work effectively in a collaborative environment to create top-performing interfaces.
- You are not afraid of taking responsibility, you are curious, multi-skilled and enthusiastic.
- You are relentlessly proactive.

What we offer

- A competitive salary, based on experience.
- An exciting job in a true startup environment.
- Permanent contract: beginning ASAP.
- Location: La Hulpe.
- Flexible hours - up to 2 remote working days per week.

Do we meet? Send us your CV and a few lines to explain why you want to join us at jobs@hexeko.com !
