

## Front-end Developer (VueJS)

### Hexeko

Founded in 2018, Hexeko is a start-up with a mission to modernise and digitise the employee benefits package. Hexeko provides its corporate clients with a smart spending card and an employee App, as well as an intuitive management platform. With its technological tools and innovative payment methods, Hexeko aims to become the market leader in employee benefits in Europe.

Since its creation, the start-up has experienced strong growth in Belgium and is currently expanding internationally. At the end of 2021, Hexeko was acquired by the Up Group, one of the world leaders in the employee benefits market (active in more than 20 countries). In collaboration with this French group, Hexeko now offers a multi-benefit solution called UpOne that brings together lunch, mobility, gift and culture on one card and one App.

Hexeko's goal is to continue to innovate and revolutionise this sector in the years to come. This is why we are looking to expand the team with ambitious and motivated profiles.

Joining the Hexeko team means:

- Improving the daily life of employees and companies.
- Participating in the evolution of the Belgian and French employee benefits market.
- Developing your skills through training and a stimulating work environment.
- Being part of a young and dynamic team.

### Mission

Are you a highly experienced, ambitious front-end developer wanting to take part in a challenging role where you can learn lots more?

We are looking for a motivated front-end developer to come join our agile team of professionals. If you are passionate about technology, constantly seeking to learn and improve your skill set, then you are the type of person to fit our team.

We are offering superb career growth opportunities, great compensation and benefits. Your mission will be to develop our activity by carrying out several varied tasks:

- Front-end developer duties and responsibilities.
- Design and implement new features, refine and optimize existing features.
- Ensure a high-quality code base.
- Define and spread best practices.
- Participate and assist in carving backlog into sprints.

- Work together with front-end and back-end developers, product management and other teams.

## Our stack

- VueJS
- NodeJS
- Vuex stores, VueRouter
- Webpack
- Gitlab with CI/CD
- Docker development environment
- AWS
- Back-end : Laravel 8+ / PHP 7+ with Queues, Events, Mail, Cache

## Required profile

- Several years of experience in building Single Page Web Applications.
- Excellent knowledge of JavaScript and Vue.js features, patterns and best practices.
- Demonstrated, high-level expertise with our stack: Vue.JS (Advanced/Expert), Git (Basic), SASS/SCSS (Advanced/Expert), Webpack.
- Experience with UI frameworks such as Bootstrap.
- Experience with statically typed programming languages (ideally TypeScript).
- Experience with Test-driven JavaScript development.
- Knowledge of cross-browser development and browser compatibility.
- You like developing NPM packages.
- You are not afraid of taking responsibility, you are curious, multi-skilled and enthusiastic.
- You are relentlessly proactive.

## What we offer

- A competitive salary, based on experience.
- An exciting job in a true startup environment.
- Permanent contract: beginning ASAP.
- Location: La Hulpe.
- Flexible hours - up to 2 remote working days per week.
